

Progress after Monday's Meeting -

1. Census Profiles -

- a. Added source links to the Census Tracts, Lewiston, and Androscoggin County
- b. Added maps In the Census Profile to help visualize the specific Tracts.
- c. Added source links to the Census Tracts Master Table

2. Lead Mapping -

- a. Added source links to every data point in the document
- b. Clarified the headings and percentage points (explained what the percentage means)
- c. Clarified the fact that the data is for Lewiston and NOT the specific Census Tracts

3. Media Representation of Lewiston 2018 vs 2023 -

- a. Made progress with planning and creating guidelines:
 - Use years 2017 October - 2018 October to compare with 2022 October - 2023 October
 - Ignore any articles related to Covid and the Lewiston Shooting (they will be considered as outliers)
 - Use the AI tool [Sentiment Analyzer](#)
 - Use the Keyword - Lewiston Maine Articles
 - Aim for 100 articles for each so 200 in total
- b. Created Google Sheets where I started filling up with data points (similar to the previous Statistics Class Project).

4. Street Lights Project -

- a. Read through all the files and data provided and emailed Professor Coombs for Methodology and Slides to build from his work.

To Be Done -

- 1. Find 2014-2017 Census or ACS data for comparison with 2018-2022 Data for Census Tracts
- 2. Get slides and Methodology from Professor Coombs to get started with Street Lights Project
- 3. Continue working on the Media Portrayal Analysis - aiming for next Progress Report on Tuesday the 9th and complete the project by Monday the 15th.
